

SPECIAL EVENT INFORMATION GUIDE

The City of Maricopa Community Services department has developed this information guide to assist you in the planning process for festivals and events in our city. The application process is intended to provide City of Maricopa staff with an overview of your event. The information provided is used to determine whether or not your request complies with City of Maricopa rules and guidelines, the impact on area residents, businesses and or park guests. Several departments within the City work together to make this application process simple and complete. However, there may still be instances where you need to contact other agencies and departments individually. The following pages include the City of Maricopa’s Special Event Permit Application instructions to guide you through the permit process.

Time Frames for Special Event Permit Application Approval

Pursuant to ARS 9-835, the City establishes overall permitting time frames during which the City will either grant or deny each type of permit that it issues. The time frame includes an administrative completeness review period to accept or reject the application, and a substantive review period to provide a technical review of the request. The City shall approve or deny the request within the overall time frame listed below, however, should the City extend the review period for additional submittal(s), said extension’s shall not exceed 25% of the overall time frame. The below time frames begin from date of receipt of application.

Please note: These are projected time frames only and may change due to workload and staffing considerations. Applications that requires Council Approval shall be submitted 90 days prior to event date. All others 60 days recommended, or at minimum 30 days prior to event date.

Application Type	Administrative Completeness Review	Substantive Review	Total Time Frame
Special Event Application	10 days	20 days	30 days
Petition for Block Party Permit	10 days	20 days	30 days
Events with Alcohol	10 days	80 days	90 days

The City may request the applicant submit additional information or make corrections to the application to fulfill all requirements for approval. In this event, the substantive review time frame and the overall time frame are suspended from the date the request is issued until the date that the municipality receives the additional information from the applicant.

City Council approval will be needed for any events that are overnight or have alcohol.
